# WHAT IS COMODITY TRADING ?

Commodity trading involves buying and selling raw materials like gold, oil, and wheat. It's a market where producers sell to consumers or investors speculate on price movements. Trading methods include spot market (immediate delivery), futures contracts (lock in price for future delivery), and options (right to buy/sell at set price).

You can trade commodities for hedging (manage price risk), speculation (profit from price movements), or diversification (portfolio strategy). Popular commodities include gold, oil, natural gas, and wheat.

# WHY TRADE ON COMODITY

## DIVERSIFICATION

Adds Variety to your portfolio, reducing risk.

## HEDGING

Protects against price fluctuations in underlying assets.

## PROFIT POTENTIAL

Opportunities to capitalize on market volatility.

## GLOBAL ACCESS

Trade major commodities worldwide, 24/7 .
